Dear Dr. Yachter and Staff,

The congregation and I would like to take this opportunity to say thank you for worshipping with us, and for sharing the dynamic and life-changing message of Health and Wellness. This message has impacted us, and it is one that we will not soon forget, as evidenced by the overwhelming response of our members.

Thank you for allowing the Lord to use you to minister to us in this unique way. We are truly grateful for the knowledge that was imparted. I believe you have been effective in positioning our members on the path to physical Health and Wellness.

The members of Pentecostal Tabernacle have been challenged, and we will continue to do our best to be good stewards of our health. Once again, thank you

Sincerely,

S. Robert Stewart

Dr. Yachter,

I would like to take this opportunity to recognize and thank you for your participation in our recent Potential Series. Your knowledge base as a certified Body by God Physician was extremely helpful as we planned and executed what will prove to be a very important series here at Flamingo Road Church. The Extreme Makcover class that you taught was a huge success and a great addition to the series. Your ability to connect with your audience and give practical tips for healthy living made a somewhat uncomfortable topic interesting and relevant. Your support of Run Through the Ranches was critical to its success and your insight as a runner yourself provided us valuable feedback as we planned and executed one of our larger outreach events. Again, I would like to thank you for your support of the ministries here at Flamingo Road Church and for the lives that you helped to change.

God Bless,

Dear Dr. Yachter,

There are some people who come into our lives that we feel that is was directed by God. You are one of those people.

I came to your office with severe pain in my neck and shoulder. Sometimes the pain was unbearable. After a few treatments the pain subsided and continues to improve.

It seemed from the beginning that we would develop a friendship and do something significant for God. After your lecture at the church that I pastor, World Harvest Worship Center, I began to understand why. Your lectures enlightened our people on how to begin to take care of their bodies which are the Temple of the Holy Spirit.

It goes without saying, if we are sick and tired we cannot be effective in doing Kingdom work. I thank God for you and the ministry that you are doing among God's people. I can highly recommend you to our pastors and have you share your challenging lecture with their people.

May God richly bless you for being such an inspiration and blessing to God's people.

Sincerely in Him,

Dear Dr. Yachter,

It was a privilege to have you meet with the members of Faith Tabernacle. The level of creative energy you have demonstrated as well as your expertise in your field was obvious and very gratifying to see. The impact that you left was tremendous and an invitation to come again is opened.

I appreciate your willingness to participate in our forum and thank you for your support in contributing to our church and for the book Body By God. These are well appreciated and will not be forgotten.

I have received a positive feedback about the seminar. We fully acknowledge that we would not have received such positive feedback from the members without the outstanding presentation and thought-provoking discussions provided by a talented individual like you.

Sincerely yours,

Rev. G. Oliver Barnes

Dear Dr. Yachter,

I cannot thank you enough for speaking at our 18th annual awards banquet. The information on how to eat right so that we will have great energy is just what our people needed to hear. It was clear and concise and easy to apply.

I also wanted you to know that I rarely allow anyone outside our organization to speak to our people. We have so many great speakers in our organization that there is hardly ever a good reason to have somebody outside our team speak.

After meeting you for my back pain I realized that you are one of us. It is refreshing to meet someone outside our business that is passionate and sincere about what they do. It is obvious that you have found your purpose in life and are out fulfilling it with great energy and enthusiasm.

The feedback from the over 400 in attendance has been overwhelming. Most were eager to meet with you to have their own personal evaluation. It was by far the greatest response I have ever had from any speaker in 18 years.

It is so rare to meet like minded people and look forward to when we can have you speak again in the future.

Thanks again,
